Excel Tutorial on Linear Regression

If we have reason to believe that there exists a linear relationship between the variables x and y, we can plot the data and draw a "best-fit" straight line ...
phoenix.phys.clemson.edu/tutorials/excel/regression.html - 11k - [Cached](#) - [Similar pages](#)

Linear Regression

Linear Regression. Linear Regression. Fit the line $y = mx + b$ to linear data where: x is the dependent variable; y is the independent variable ...
science.widener.edu/svb/stats/regress.html - 2k - [Cached](#) - [Similar pages](#)

Linear Regression

Linear regression attempts to explain this relationship with a straight line fit to the data. The linear regression model postulates that ...

Linear Regression Applet

After each point is added by clicking on the screen with the mouse, a blue best fit line will be calculated by the computer. By clicking on Show Best Fit, ...
www.mste.uiuc.edu/activity/regression/ - 2k - [Cached](#) - [Similar pages](#)

Linear Regression

Linear regression attempts to model the relationship between two variables by fitting a linear equation to observed data. One variable is considered to be ...
